---

## WE INSTALL AND COMMISSION ALL KIND OF WATER TREATMENT PLANTS LIKE

- ▶ Sewage Treatment Plants (STP)
  - ▶ Effluent Treatment Plants (ETP)
  - ▶ Drinking Water Treatment Plants
  - ▶ Bore-well Treatment Plants.
- 

## DESIGN SPECIALTIES

- Low foot print : Consumes only 15% of conventional STP
- Aesthetic look : Suitable for installations at commercial places
- Odorless : Gases are routed properly
- Plug & Play type : Negligible stabilization time
- High quality output water : Treated water of reusable quality
- Low sludge : Due to high degree of treatment
- No / minimum chemicals
- Compact plants
- Reduced power consumption
- Low- maintenance
- Plant can be kept away from collection tank
- Addresses all procedures of a conventional STP
- Total cost less than conventional STP
- Customers scope minimized to Collection & Treated water tank
- Choice for opting pre- fabricated Collection & Treated water tank
- Two stage screening of bacteria & virus
- No need of additional superstructure or equipment room
- Lesser civil construction involved
- Totally automated design : Does not need a full time operator

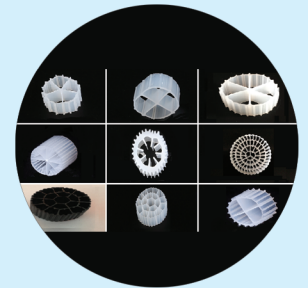

## DRINKING WATER TREATMENT SOLUTIONS
